11September 2020

2021 Online and Onsite Fees (Subject to change)

Saintsburg reserves the right to amend their fees at any time without prior notice. This pricelist does not constitute a legal offer. Fees are fixed once the written agreement is signed by both guardian and Saintsburg.

Because home schoolers' needs differ so much, Saintsburg offers online tutoring services with various options and at different price points. One requirement is that all learners must be registered for Eduanywhere to receive tutoring of subjects through Saintsburg if those subjects are available on Eduanywhere because it forms part of the way we give classes and homework. Although Eduanywhere Junior is advised for Concrete learners, it is not a formal requirement.

Because we are a tutoring center and not a school, we try to be as flexible as possible and parents can choose any number of subjects or, if they so choose, elect a package that includes all subjects.

Services available in 2021 – Bookings now open. Onsite attendance will be subject to availability as space is limited.

Concrete and International GCSE Mathematics can be taken as a single class per week or twice per week, depending solely on affordability.

English and Afrikaans can be taken as tuition with or without marking and feedback but not as marking and feedback only.

All other subjects have classes according to the following three service offerings:

“Tuition only” classes,

“Q&A only” classes

or on a “Complete” basis (this is both Tuition and Q&A)

Concrete Classes (ages 9 – 11) Online and onsite options.

Subject	Description	Format	Class time	Online Price per month over 12 months	Onsite Price per month over 12 months	Tick to select
Mathematics OR	Single	Tuition & help	100 minutes class once per week	R800	R1000	
Mathematics	Double	Tuition & help	100 minutes class twice per week	R1500	R1800	
Languages						
English	Standard	Tuition & help	100 minutes class once per week	R500	R750	
Afrikaans	Standard	Tuition & help	100 minutes class once per week	R500	R750	
Spanish	Standard	Tuition & help	100 minutes class once per week	R500	R750	
Concrete Sciences						
Physics	Standard	Concrete presentation.	120 minutes class every 2nd week	R450	R750	
Chemistry	Standard	Concrete presentation	120 minutes class every second week	R450	R750	
Biology	Standard	Concrete presentation	120 minutes class every second week	R450	R750	
Computer Science	Standard	Concrete presentation	120 minutes class every second week	R450	R750	
Comprehensive Package						
All subjects package			As per the above	R4500	R6000	
All 4 Sciences as a package			As per the above	1600	R2600	

During a Mathematics, English or Afrikaans class, the progress of the child is monitored and the classes are subject to two way communication.

Concrete Sciences classes attended online, are strictly on a presentation only basis and no interaction with online attendees will be possible – this is to keep prices low and the outcome is the priming of the brain towards work that will be done again during later stages. Material boxes will be for sale.

International GCSE (four year course but open to kids ages 12 – 16) Grade 5-10 equivalent. Online and Onsite options

First three years: Priming, GCSE 1 and GCSE 2

Special Classes.

Special classes are arranged on request for less popular subjects. These classes are more expensive but learners may use the opportunity to make faster progress due to the small size of the class. Please enquire with us as to the availability for subjects not covered by our standard program.

The following subjects are examples of how these classes are typically structured.

Subjects	Hours per week during academic calendar	One on one classes.	Small classes from 2 – 5 attendees per student
AS History	1	R1500	R960
AS History	2	R2900	R1450
Pure Maths 3	1	R1400	R960
